And Who We Are?

Small Introduction

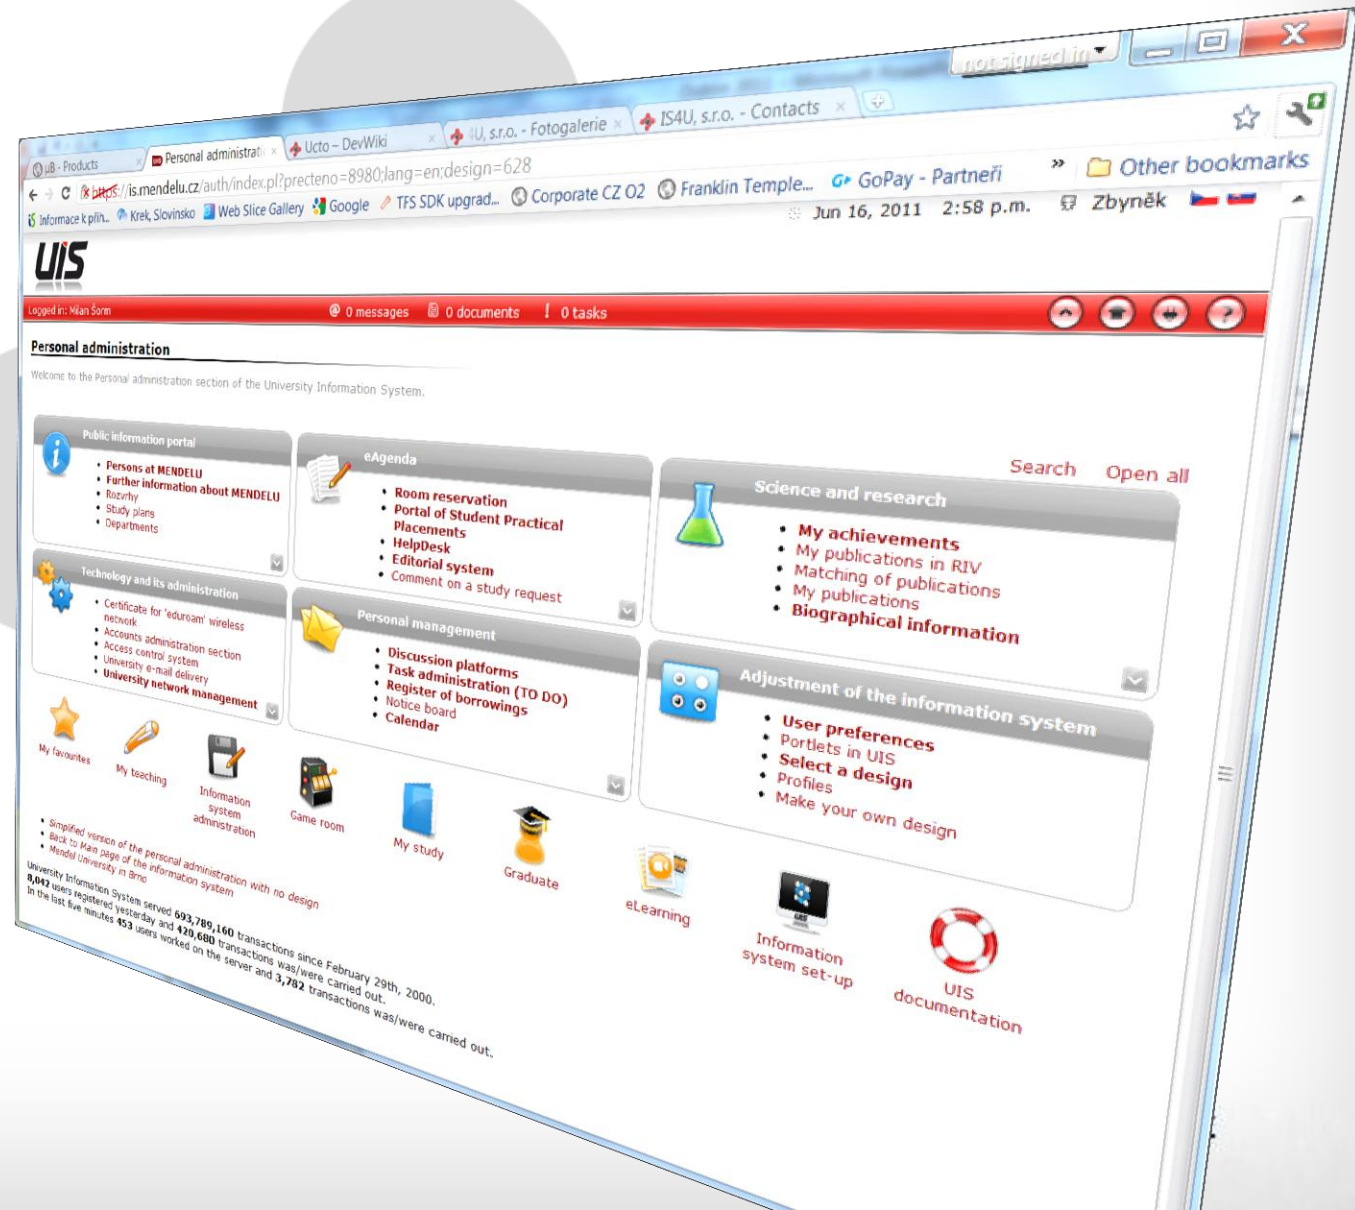

Our Mission

“To develop custom software satisfying our customers’ needs.”

“We pay attention to detail – solution is so good as good is the weakest segment.”

“In the long run no project can be successful without satisfied users.”

Our Former Product

Reasons to Change

The screenshot shows the IS4U EDU ONE software interface. At the top, there is a navigation bar with tabs for "Main" and "Nastavení". Below this is a menu with icons for "Uložit", "Pracoviště", "Evidence období", and "Konfigurace". The main area is a calendar grid for the years 2010, 2011, and 2012. The calendar is divided into sections for "Academic Years" and "Calendar Years". The "Academic Years" section shows dates from 2009 to 2012, with a red vertical line indicating the current date. The "Calendar Years" section shows dates from 2010 to 2012. At the bottom, there are buttons for "OK", "Zavřít", and "Použít". A status bar at the bottom left shows "Připraven" and a search icon. A small dialog box at the bottom center says "Vytvořit hlavní sekvenci". The bottom right corner of the window says "Instalace: University IS4U".

Development

- Current situation: technology preview
- The analysis is based on 12 years of experience with target domain (universities)
- Planned release date is **September 2013**
- **Development Partner Program** for universities allows involving future customers to an analysis and development phase
- See more details at <http://partner.eduone.eu> or visit our stand on TCD Upper Concourse

The Business Model

- Partnership administrative fee started at € 0.30 per study and year allows handling portals, workshops and information campaign
- Usage of the whole solution for partners is **FOR FREE** (without DB, OS, HW/cloud services)
- Our business model is based on different scope than annual university payment model
- IS4U plan to sell **Premium Services** to students

**You are welcomed
to visit our stand
on TCD Upper Concourse
